

**About Client - [Mother India](#)**

Mother India Forming Pvt. Ltd. , is one of the leading manufacturers of customized tubular section (shaped tubes) and profiles in India. With 40+ years of experience in shaping sheet metal and increasing business opportunities in India, the decades old standard ERW steel tube and simple roll formed profile manufacturing facility has been upgraded to manufacture customized steel tubes. Today we operate at four different locations in Bangalore. These facilities include machines for rollforming, bending, laser cutting (2D, tube & Robo) & powder coating. We manufacture parts for Automotive, Construction Equipments, Elevator, Racking (Storage & Electric), Safety, Textile Machinery, Furniture and others.
